# ESSENTIALS OF EQUINE DENTISTRY

## 5 Day Intensive Workshop - Introduction to Equine Dentistry for Veterinarians

Feb 28 to Sat March 3, 2012

**66**  
CE points

**Come to the best equine veterinary dental training workshop in the world!!**

- Our equine vet practice performs over 1600 dentals per year and **doesn't just sell tools like other dental wet lab hosts**. We won't fill your brain and waste your time and money with **unproven techniques** which require **expensive tools** and are **doomed to fail!**
- **We know the art, science and marketing of equine dentistry intimately!** EVDS has used equine dentistry to grow from a solo equine practice in January 2009 to a **three-vet equine practice in September 2009!**
- Having hosted **over 300 equine vets over the past 8 years** at our training workshops, EVDS is absolutely dedicated to ensure that every vet who attends our **five day workshop** returns to their practice confident and competent to go out and perform quality routine dentistry — bread and butter work which will return good results and happy clients.
- Horse owners want **high quality dentistry at affordable prices** for their horses— **we can teach you how to deliver it!**
- We have a great mix of lectures, dry labs, cadaver pracs and live horses. This **proven combination** and sequence of lectures and pracs allows your knowledge and confidence to grow over the five days, and this reinforced knowledge and new skills **will stay with you**.
- **The last two days are entirely on live horses** where you are **guaranteed** to use different sedation protocols, systematically examine 10-14 live horse mouths, perform infra-orbital nerve blocks, extract wolf teeth, do performance floats using hand tools and power floats, perform "bit seats", complete dental charts, communicate and explain pathology to the owners — who will appreciate your efforts and attendance at the workshop.

**REGISTER TODAY!**

### 5 DAY INTRO WORKSHOP

**Feb 28-March 3 2012** (Tues to Sat)

Registration fee: \$4,300 incl. GST
